Claims 1 to 10 are pending.

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

2. This application is in condition for allowance except for the following formal matters:

A...The title of the invention is not adequately descriptive. A new title is required that is more clearly indicative of the invention to which the claims are directed by making reference to the recording head being for perpendicular recording and including a protruding portion protruding towards a main pole.

B...Claims 2 and 3 are objected to because of the following informalities: claim 2 is awkward and the later part of the claim should be rewritten as, for example, -- ...wherein the auxiliary pole is disposed on the trailing side of the main pole farther from the main pole than the magnetic layer --.

C...The disclosure is objected to because of the following informalities: page 4 – line 4, the phrase “magnet resistive” should be replaced with -- magnetoresistive -- or -- magneto-resistive --.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

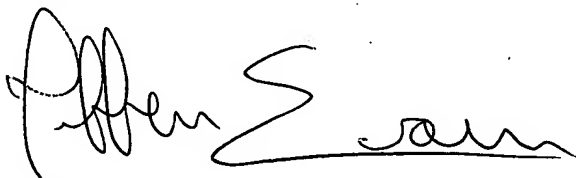

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
